To Whom It May Concern:

Coming highly recommended, Covenant Construction is and continues to partner with Equity Office Properties working with our staff and our tenants on high-end tenant finish-out projects.

Covenant Constructions culture is based on everyone being satisfied, from our internal clients (our people), our tenants, to our external clients (Architects, Engineers, Owners, Vendors, Subcontractors, etc.). Covenant focuses on the needs of our tenants and the project at hand; they do an excellent job in identifying with our tenants and then controlling the processes of the tenant improvements so that ultimately we have a successful project meeting everyone expectations.

I have personally worked with Covenant for 12 years and highly recommend Covenant Construction to other commercial property managers and ownership interest.

Sincerely,

Equity Office Properties

Jacqueline Johnston, RPA®  
Senior Property Manager
